Who reads what. TCs: read sections 1–11 and keep the Quick Reference Card handy. Owner: also read section 12.

1 What The Title Agent Does

Upload a title commitment, and the Title Agent lists everything that has to happen before the deal can close, the way a senior title examiner would. Each item shows exactly where it came from, so you can check it in seconds.

Reads every page

Including scanned pages. It reads Schedule A, every Schedule B-I requirement and every B-II exception, plus the purchase contract if you add it.

Leaves nothing behind

A separate check (not the AI) counts every numbered item in the commitment. If anything is unaccounted for, the screen tells you in red.

Learns from your team

When it misses something, you report it. Once an admin approves the lesson, the agent checks for it on every deal from then on.

What a review gives you

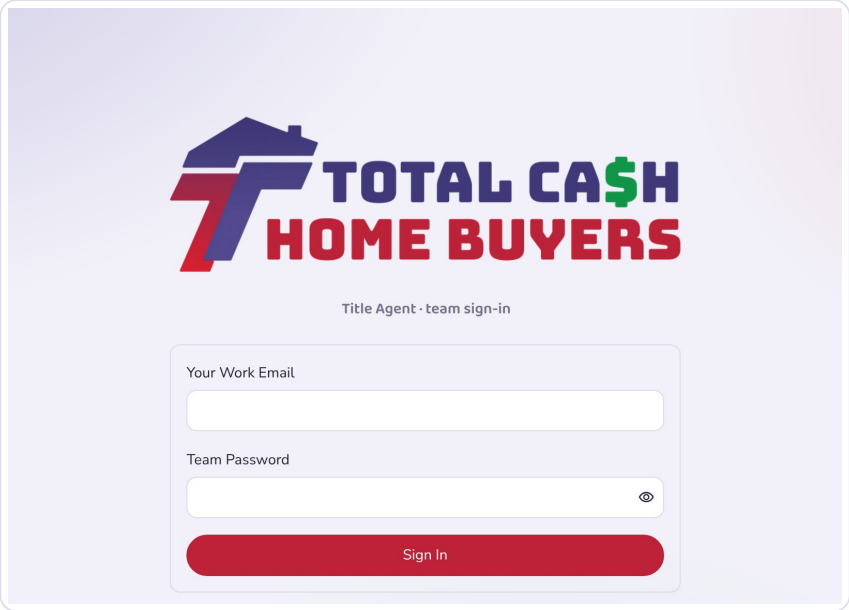

- **A list sorted by urgency**: Closing Blockers first, then Before Closing, then Review / FYI.
- **For every item**: what to do, who actually has to provide it, a due date counted back from closing, the amount when there is one, and the exact wording and page in the commitment.
- **Warnings** when the commitment expires before your closing date, or when a numbered item could not be accounted for.
- **A working checklist**: statuses, due dates and notes the whole team sees, exportable to Excel, PDF, Word and more.

Important. The Title Agent does not replace the title company or the attorney, and it can be wrong. It makes sure nothing is overlooked. A person still checks the list and signs off before closing.

2 Signing In

The app is on the web, so it asks who you are before it shows anything.

1. Open the app link the Owner sent you. Bookmark it.
2. Type your **work email** and the **team password**, then click **Sign In**.
3. That's it for the next 30 days on that browser. Refreshing the page or clicking a link from the daily email opens straight in.
4. On a shared or public computer, click **Sign Out** at the bottom of the left sidebar when you're done.

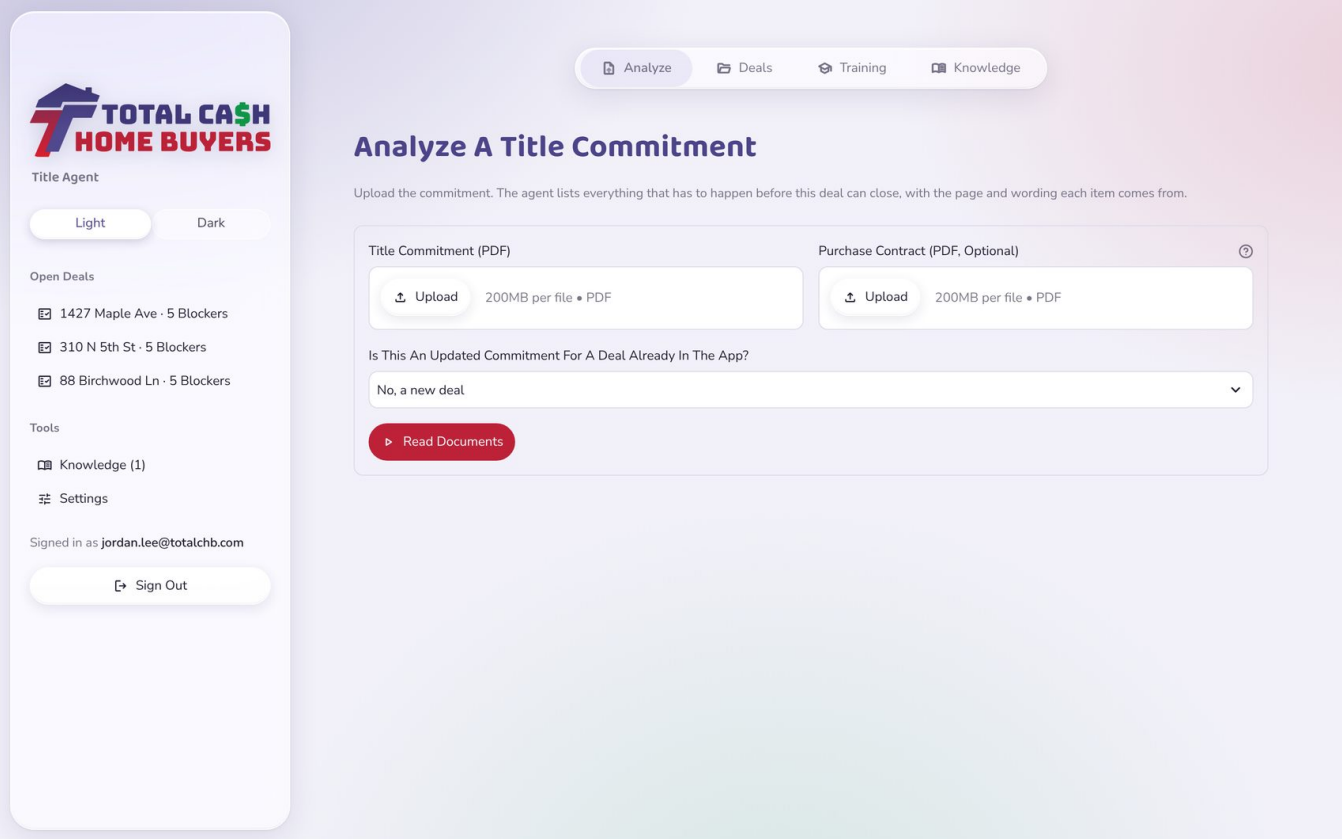

The sign-in screen. Nothing else in the app is visible until you sign in.

Watch out. Never share the team password outside the company, and never paste it into email threads with sellers, buyers or title companies. If it leaks, the Owner changes it and everyone signs in again.

Tip. The first visit of the day can take about 30 seconds while the app wakes up. That's normal.

3 Finding Your Way Around

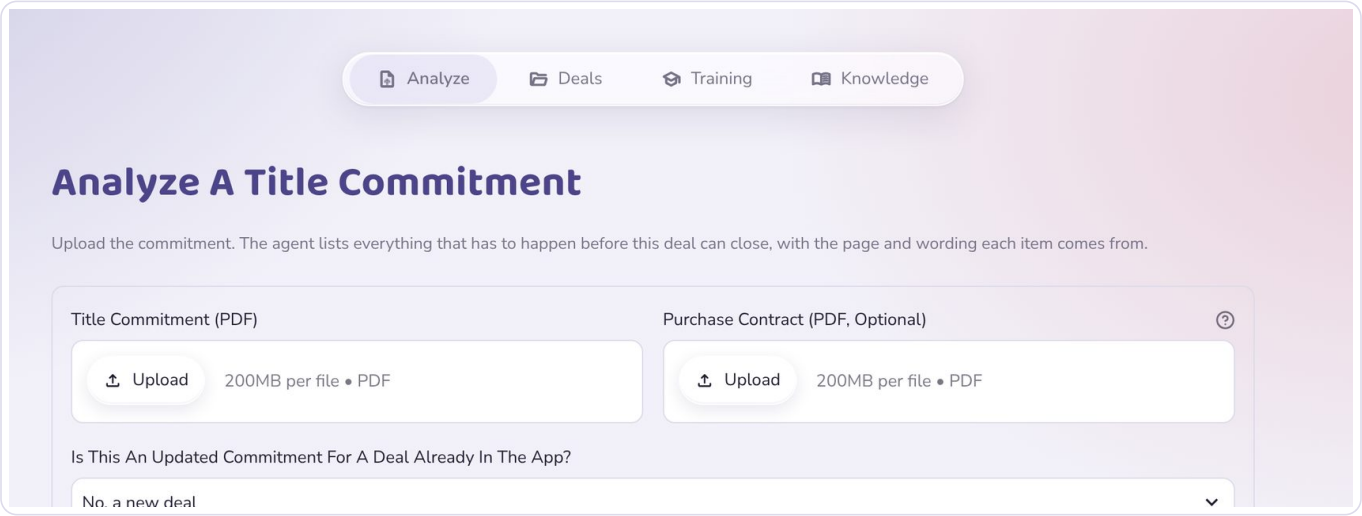

The Analyze page right after signing in.

Where	What it's for
Tabs at the top	**Analyze**: upload a commitment. **Deals**: every deal reviewed. **Training**: teach the agent (optional). **Knowledge**: what the agent knows.
Open Deals (sidebar)	Your open deals with their open Closing Blockers count. Click one to jump to it.
Knowledge (n)	The number shows feedback waiting for an admin.
Settings	Team setup: admins, TCs, email recipients, due-date rules (admins only).
Light / Dark	Switches the look. Your choice is remembered.
Signed in as / Sign Out	Who you are in the app. Your name is recorded on what you change.
On a phone	Same app, same link. Tap **»** at the top left for Open Deals, Settings and Sign Out. Each item shows as a card with its Status, Provided By, Due, Amount and Source.

4 Reviewing A New Commitment

When the title company sends a commitment, run it through the agent before you do anything else.

1. Click the **Analyze** tab.
2. Under **Title commitment (PDF)**, click **Upload** and pick the PDF. Scanned PDFs are fine.
3. Optional but recommended: upload the **Purchase contract (PDF)**. The agent then checks the seller, buyer, price and dates against the commitment.
4. Leave **Is this an updated commitment...** on **No, a new deal** (for revised commitments see section 9).
5. Click **Read Documents**. Reading takes about a minute.

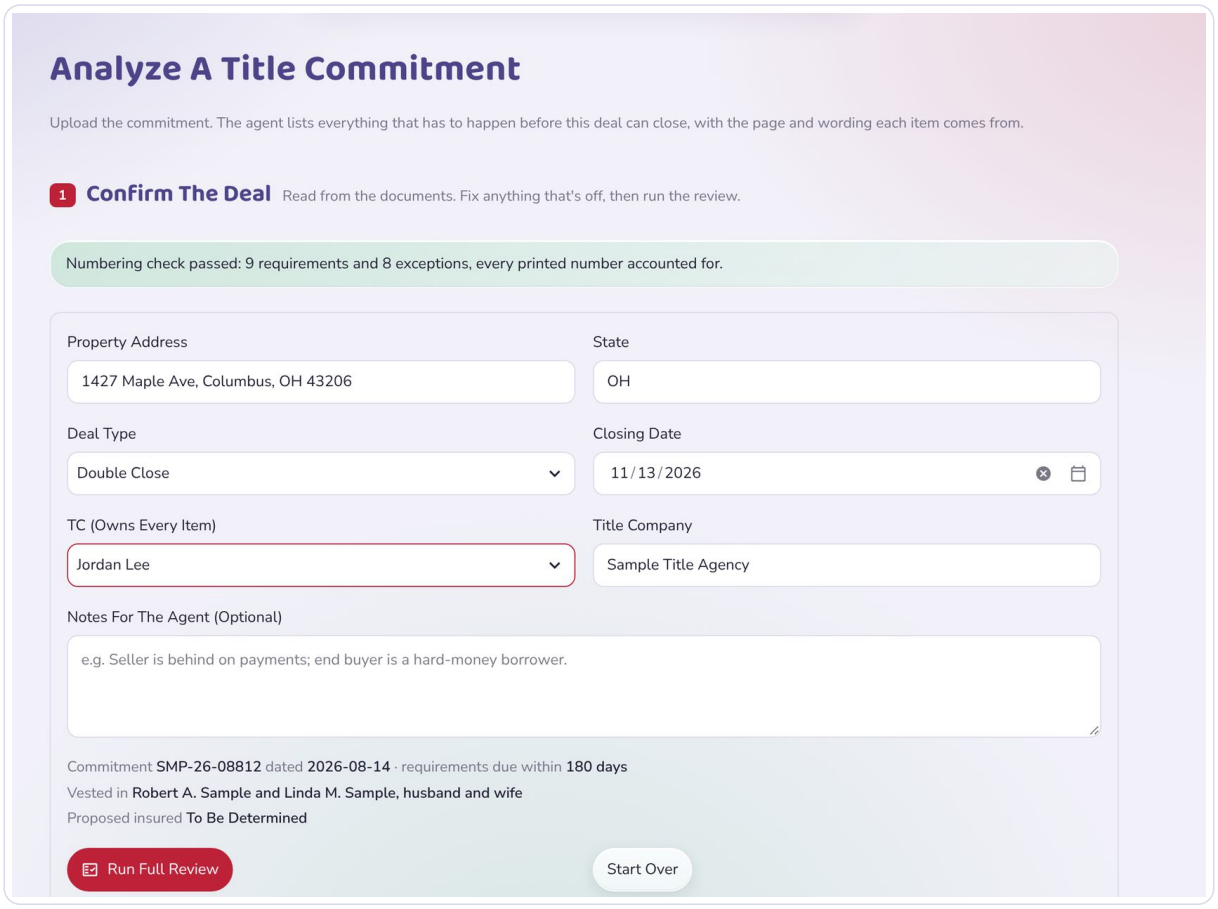

Step 1: upload the commitment (and the contract if you have it).

Confirm the deal

The agent fills in the deal details from the documents. Check each one and fix anything that's off:

Field	What to check
Property address / State	Matches the contract.
Deal type	Wholesale (Assignment), Double Close, Novation / Listing, Fix & Flip, Buy & Hold, Subject-To or Seller Financing. It changes which checks the agent runs, so get it right.
Closing date	Every due date is counted back from it. If you don't know it yet, add it later and re-run.
TC	Who owns this deal's list.
Title company	Usually filled in from the commitment.
Notes for the agent	Anything it can't see in the documents, e.g. "seller is behind on payments".

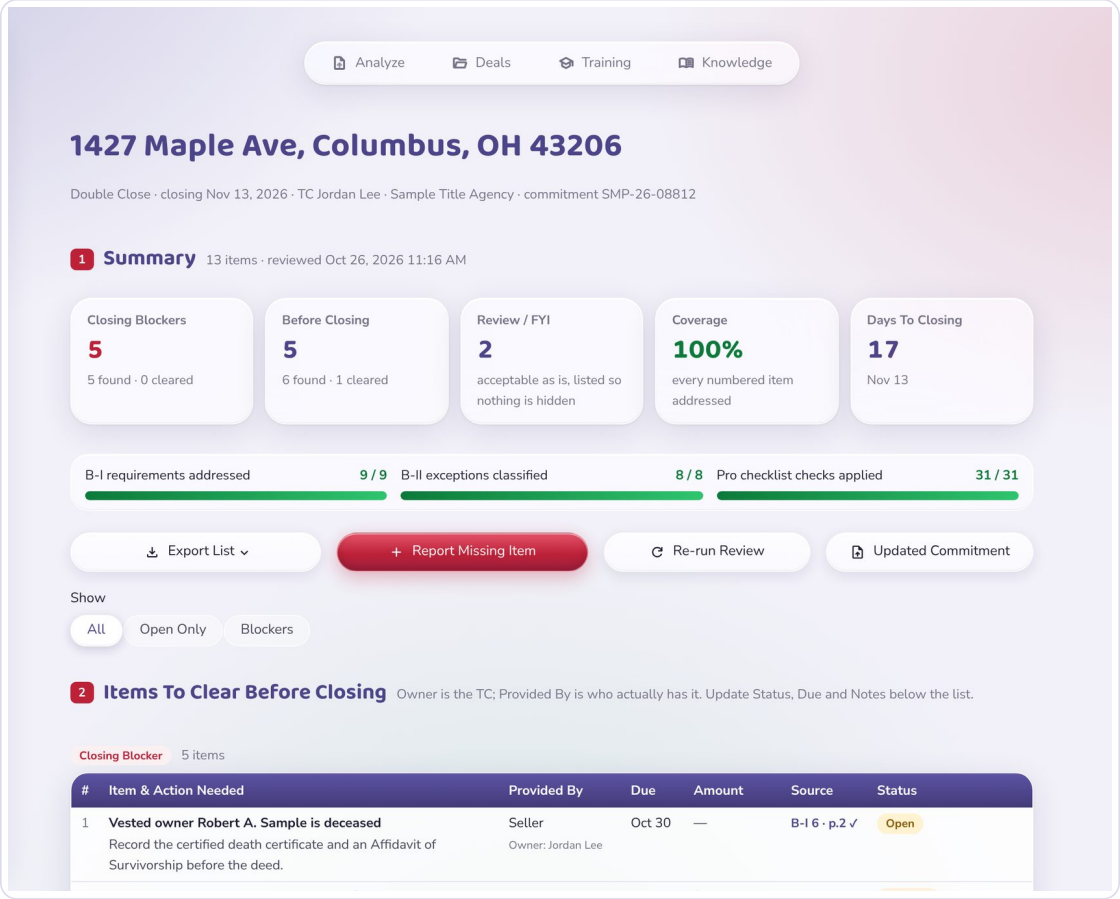

Step 2: confirm what the agent read, then click Run Full Review.

1. Look at the box above the form. Green **Numbering check passed** means every numbered requirement and exception was picked up. Red lists the item numbers to check by hand.
2. Click **Run Full Review**. It takes 1–3 minutes: the agent writes the list, then a second, independent pass looks only for anything missing. You land on the deal page when it's done.

Tip. Start Over throws away this upload and takes you back to the upload screen. Nothing is saved as a deal until you click Run Full Review.

5 Reading The Results

The deal page is where you'll spend your time. Read it top to bottom the first time.

The top of a deal page: summary, coverage, actions and the start of the list.

The summary tiles

Tile	Meaning
Closing Blockers	Open items that stop the closing. Red until they're all cleared.
Before Closing	Open items needed by closing day, handled in the normal course.
Review / FYI	Standard exceptions and notes, listed so nothing is hidden. No action needed.
Coverage	100% means every numbered item in Schedule B-I and B-II was accounted for.
Days To Closing	Counts down to the closing date.

The coverage bar

Three green bars mean the agent accounted for every **B-I requirement** and every **B-II exception**, and ran the professional checklist (31–34 checks depending on the deal type). If any bar is short or there's a red **Check by hand** box, open the commitment and read those item numbers yourself.

Watch out. If you see **The commitment expires before closing**, ask the title company for an updated commitment right away. Some commitments expire 30 days after their date, not 180.

The three priorities

Priority	What it means	Typical examples
Closing Blocker	Needs money paid to, or a document from, someone outside the closing table, or a court / government action. The deal can't close until it's done.	Mortgage payoffs and releases, lis pendens / foreclosure, judgments (even a prior owner's), tax lien certificates, city and state tax liens, workers' comp liens, code and maintenance liens, delinquent utilities, wind/lease/option memoranda to terminate, errors in the commitment.
Before Closing	Needed by closing day, but handled in the normal course.	The deed, LLC documents, FinCEN details, HOA estoppel, affidavits, transfer forms, bring-down of an old commitment, taxes due paid at closing.
Review / FYI	Standard exceptions that stay on the policy, and notes. Glance at them.	Utility easements, plat restrictions, mineral rights, road rights of way, taxes not yet due.

The item list

#	Item & Action Needed	Status	Provided By	Due	Amount	Source
1	**Vested owner Robert A. Sample is deceased** Record the certified death certificate and an Affidavit of Survivorship before the deed.	Open	Seller Owner: Jordan Lee	Oct 30	—	B-I 6 · p.2 ✓
2	**Open mortgage to First Example Bank, $142,000** Order the payoff letter; pay from proceeds; record the release.	Ordered Payoff requested from servicer 10/26	Lender / Servicer Owner: Jordan Lee	Nov 03	$142,000.00	B-I 4 · p.2 ✓
3	**Open-end mortgage (HELOC) to Second Sample Credit Union** Payoff letter plus a closure letter signed by the borrower so the line can't be drawn again.	Open	Lender / Servicer Owner: Jordan Lee	Nov 03	—	B-I 5 · p.2 ✓
4	**Judgment: Demo Collections LLC v. Robert Sample, $8,214** Pay and record the satisfaction, or get a name affidavit if it is a different Robert Sample.	Open	Lienholder / Creditor Owner: Jordan Lee	Nov 03	$8,214.00	B-I 7 · p.2 ✓
5	**Proposed insured is "To Be Determined"** Give the title company the end buyer's entity name and have the commitment updated.	Open	Our Team Owner: Jordan Lee	Nov 06	—	B-I 8 · p.2 ✓

Closing Blockers on a sample deal.

Column	Meaning
Item & Action Needed	The headline in bold, then exactly what to order, pay, sign or record.
Status	Open, Ordered, Received, Cleared or Waived, plus your notes.
Provided By	Who actually holds or provides it (seller, lender, county, court…). **Owner** is always the deal's TC, who chases it.
Due	Counted back from the closing date (see section 6). Weekends move to the Friday before.
Amount	When the commitment shows one.
Source	Where it comes from: **B-I 4 · p.2** means Schedule B-I item 4 on page 2. ✓ the quoted wording was found on that page. · scanned page or a checklist item, not checkable. ✗ not found word for word: open the source and check.

6 Working The List Every Day

The list is the team's live checklist. Keep it current and everyone (and the daily email) stays in sync.

#	Item	Status	Due	Notes
1	Vested owner Robert A. Sample is deceased	Open	Oct 30, 2026	
2	Open mortgage to First Example Bank, $142,000	Ordered	Nov 3, 2026	Payoff requested from servicer 10/
3	Open-end mortgage (HELOC) to Second Sample Credit Union	Open	Nov 3, 2026	
4	Judgment: Demo Collections LLC v. Robert Sample, $8,214	Open	Nov 3, 2026	
5	Proposed insured is "To Be Determined"	Open	Nov 6, 2026	
6	Delinquent 2025 2nd-half taxes, $1,986.40 + penalty	Open	Nov 13, 2026	
7	Maple Ridge HOA: estoppel and dues	Received	Nov 6, 2026	Estoppel received; dues paid at clos
8	Commitment date Aug 14, 2026 is getting old	Open	Nov 6, 2026	
9	Owner's policy $95,000 is below the purchase price	Open	Nov 6, 2026	
10	Warranty deed from Linda M. Sample, a widow	Cleared	Nov 13, 2026	

Below the list: update Status, Due and Notes. Changes save as soon as you make them.

1. Scroll below the list to **Update Status, Due Dates And Notes**.
2. Click a **Status** cell and pick the new status.
3. Click a **Due** cell to change the date, or a **Notes** cell to type a note (e.g. "Payoff requested from servicer 10/26").
4. Press Enter or click elsewhere. It saves immediately; there's no Save button.

Status	Use it when
Open	Nothing has been done yet.
Ordered	You've requested it (payoff letter ordered, estoppel requested, affidavit sent for signature).
Received	You have it, but title hasn't confirmed it's satisfied yet.
Cleared	Done. Title confirmed, or it's recorded or paid. Cleared items fade in the list.
Waived	Not needed after all (e.g. the buyer accepts it on the policy). Add a note saying why.

How due dates are set

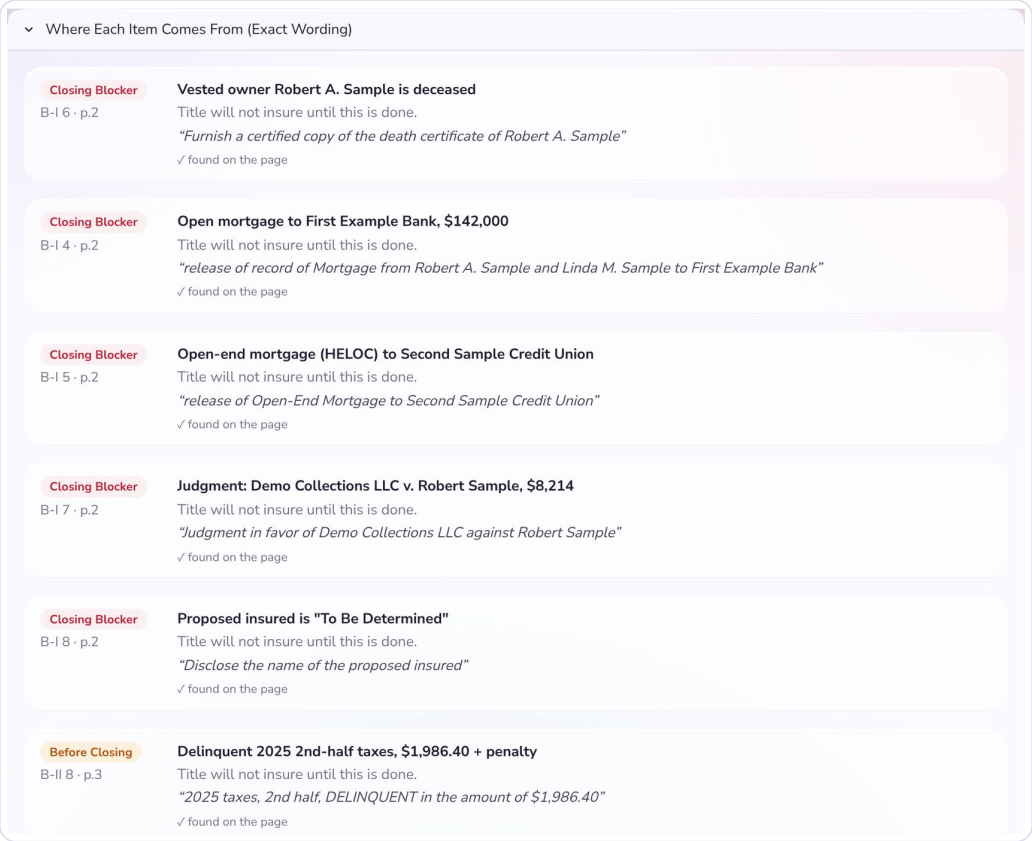

Kind of item	Due before closing
Payoff letters and lien payoffs	10 days
Court, estate and curative work (terminations, corrections)	14 days
Documents (affidavits, entity docs, forms)	5 days
Bring-down of the commitment	5 days
Paid or signed at the closing table	Closing day

Tip. Use the **Show** buttons above the list: **Open Only** hides what's done, **Blockers** shows just the Closing Blockers. A good daily routine: open each deal, filter to Open Only, work anything due in the next 3 days, update statuses.

7 Checking Where An Item Comes From

Never take an item on faith. Every item quotes the commitment so you can check it fast.

1. On the deal page, click **Where each item comes from (exact wording)**.
2. Each card shows the priority, the source (e.g. **B-I 6 · p.2**), why it matters, and the exact quote.
3. To double-check, open the commitment PDF to that page. The original PDFs are under **Documents and review history** at the bottom of the deal page.

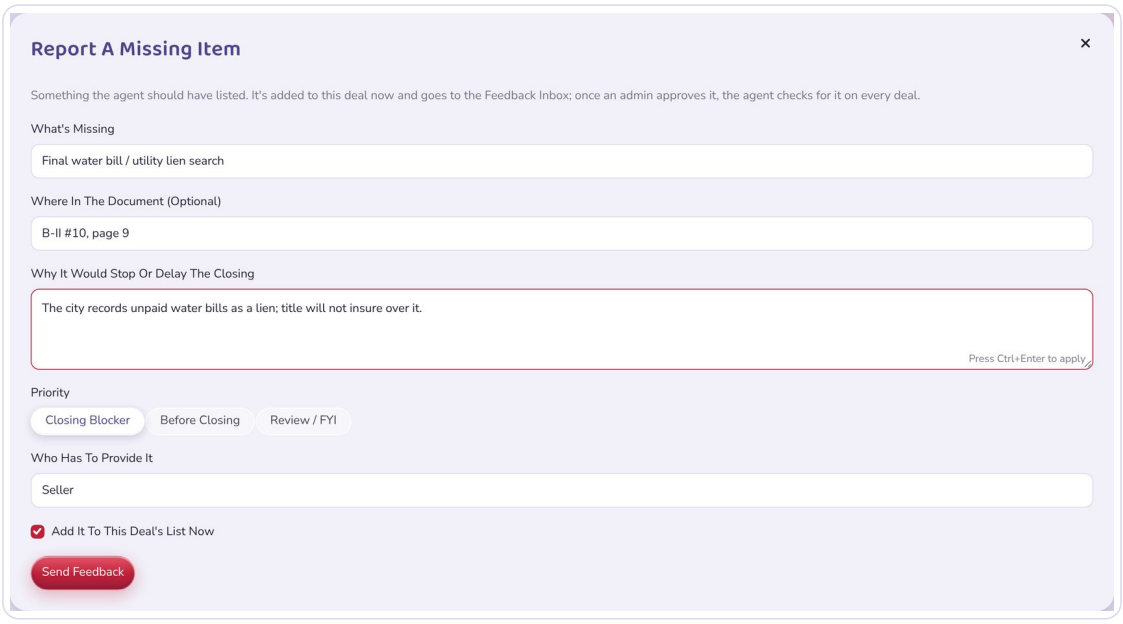

Every item with its quote from the commitment.

8 When The Agent Misses Something

This is how the agent gets better. Report every miss, even small ones.

1. On the deal page, click **Report Missing Item**.
2. Fill in **What's missing**, **Where in the document** (e.g. B-II #10, page 9) and **Why it would stop or delay the closing**.
3. Pick the **Priority** and **Who has to provide it**. Leave **Add it to this deal's list now** ticked so it goes straight onto your list.
4. Click **Send Feedback**. It goes to the Owner's Feedback Inbox. Once approved, the agent checks for it on every deal.

Report Missing Item.

Something on the list is wrong or not needed?

Open **Feedback on an item** at the bottom of the deal page, pick the item, choose **Not Needed** or **Wrong Info**, add a short note and click **Send**. Then set the item's status to **Waived** with a note.

Feedback on a single item.

9 Updated Commitments And Re-Runs

When the title company sends a revised commitment

1. On the deal page, click **Updated Commitment** (or go to Analyze).
2. Upload the new PDF and, under **Is this an updated commitment...**, pick the deal.
3. Click **Read Documents**, check the details, then **Run Full Review**.
4. Your statuses and notes carry over. New items are marked **New**; items the title company took off move to **Removed by the title company**, crossed out.

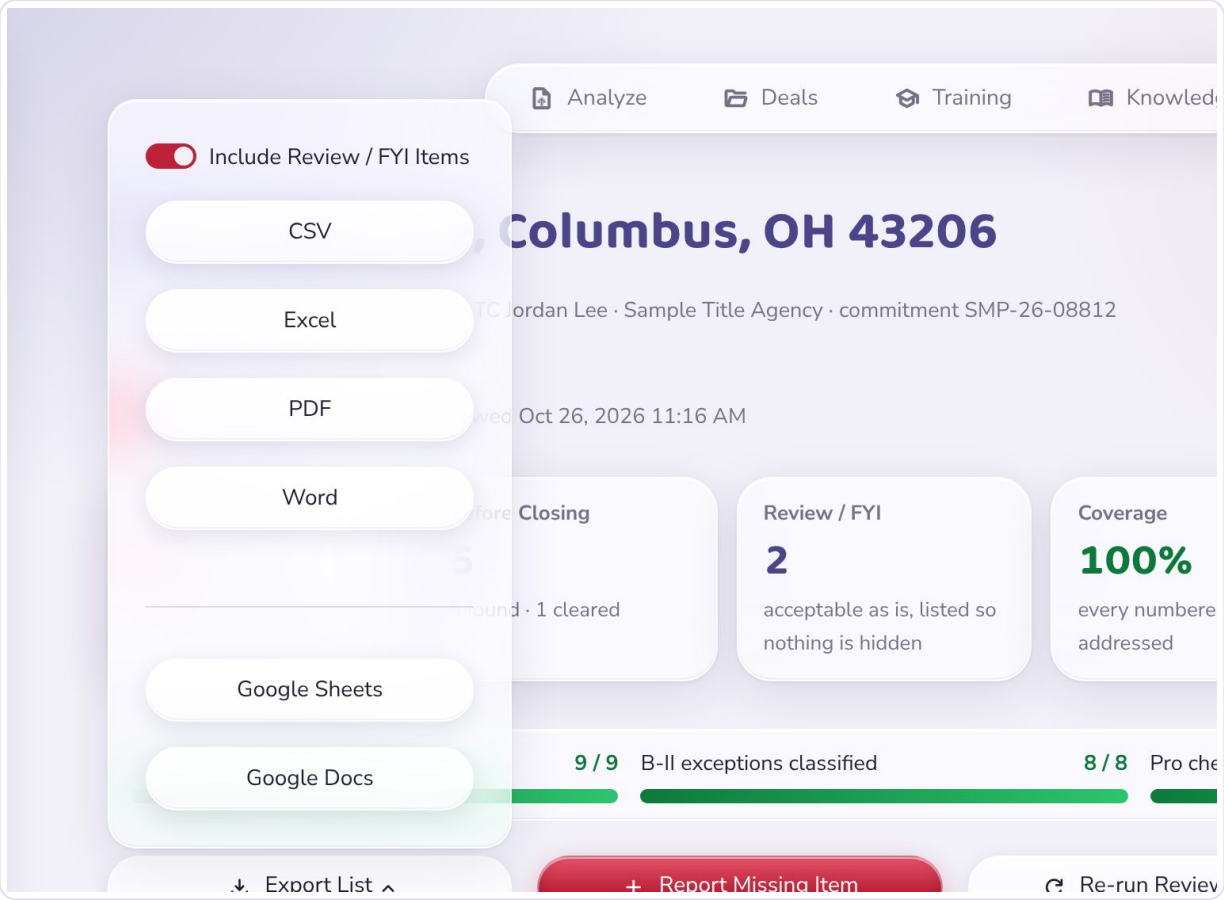

Re-Run Review

Re-run Review reads the same commitment again with the latest lessons, for example after the Owner approves new lessons or you added a closing date. Statuses and notes are kept.

10 Exporting The List

Send the checklist to the title company, the seller or the buyer, or keep a copy with the file.

1. On the deal page, click **Export List**.
2. Leave **Include Review / FYI items** on to send everything, or turn it off to send only items that need action.
3. Click the format: **CSV**, **Excel**, **PDF** or **Word**. The file downloads with the property address in its name.

The export menu.

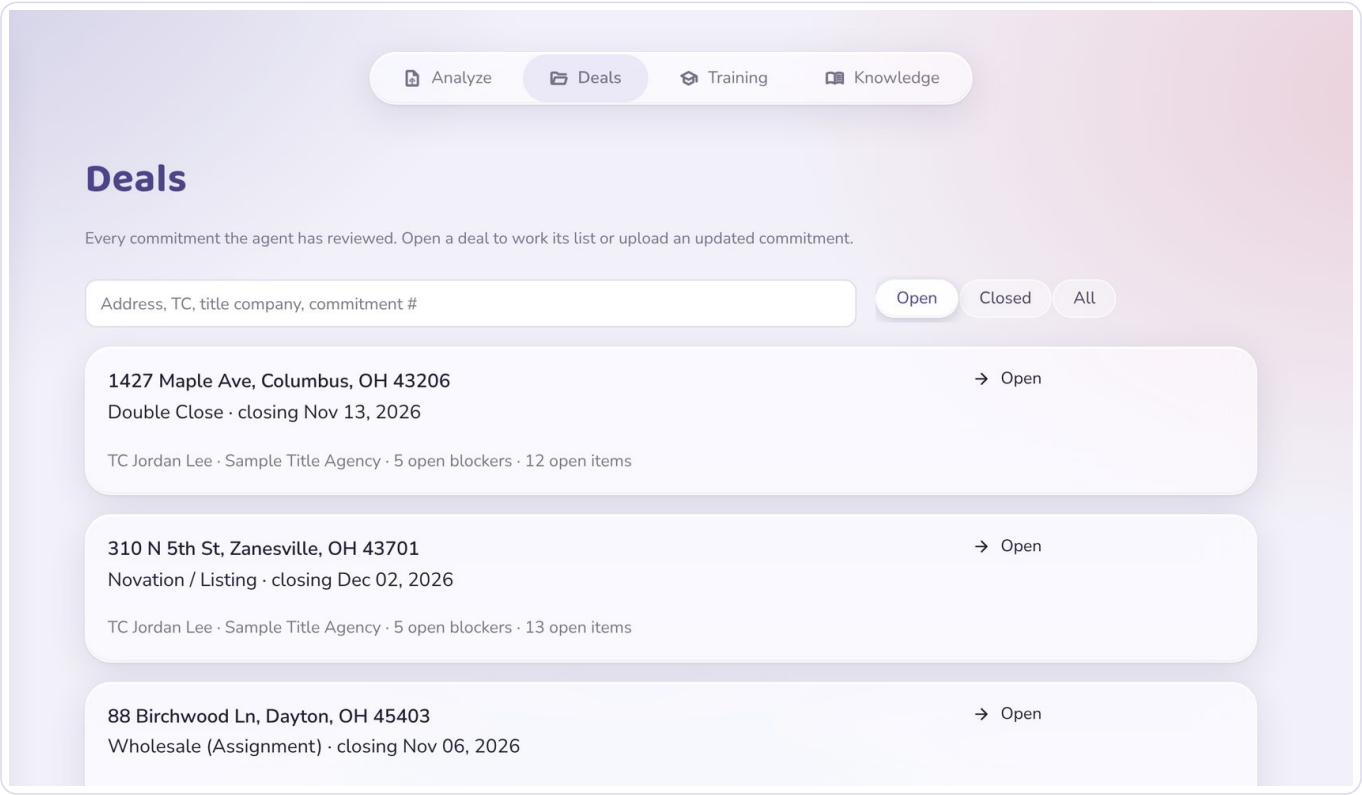

Tip. **Google Sheets** and **Google Docs** appear in the same menu once the Owner connects Google Drive. Files are then created in the team's shared folder.

Important. Exports contain names, addresses and loan numbers. Send them only to people on the deal.

11 Deals And The Daily Email

The Deals page

Every reviewed deal, newest first, with its TC, title company, open blockers, open items and anything overdue. Search by address, TC, title company or commitment number; switch between **Open**, **Closed** and **All**; click **Open** to go to the deal.

The Deals page.

Closing out a deal

After it closes, open **Documents and review history** at the bottom of the deal page and click **Mark Deal Closed**. It leaves the open list and the daily email. **Reopen Deal** brings it back.

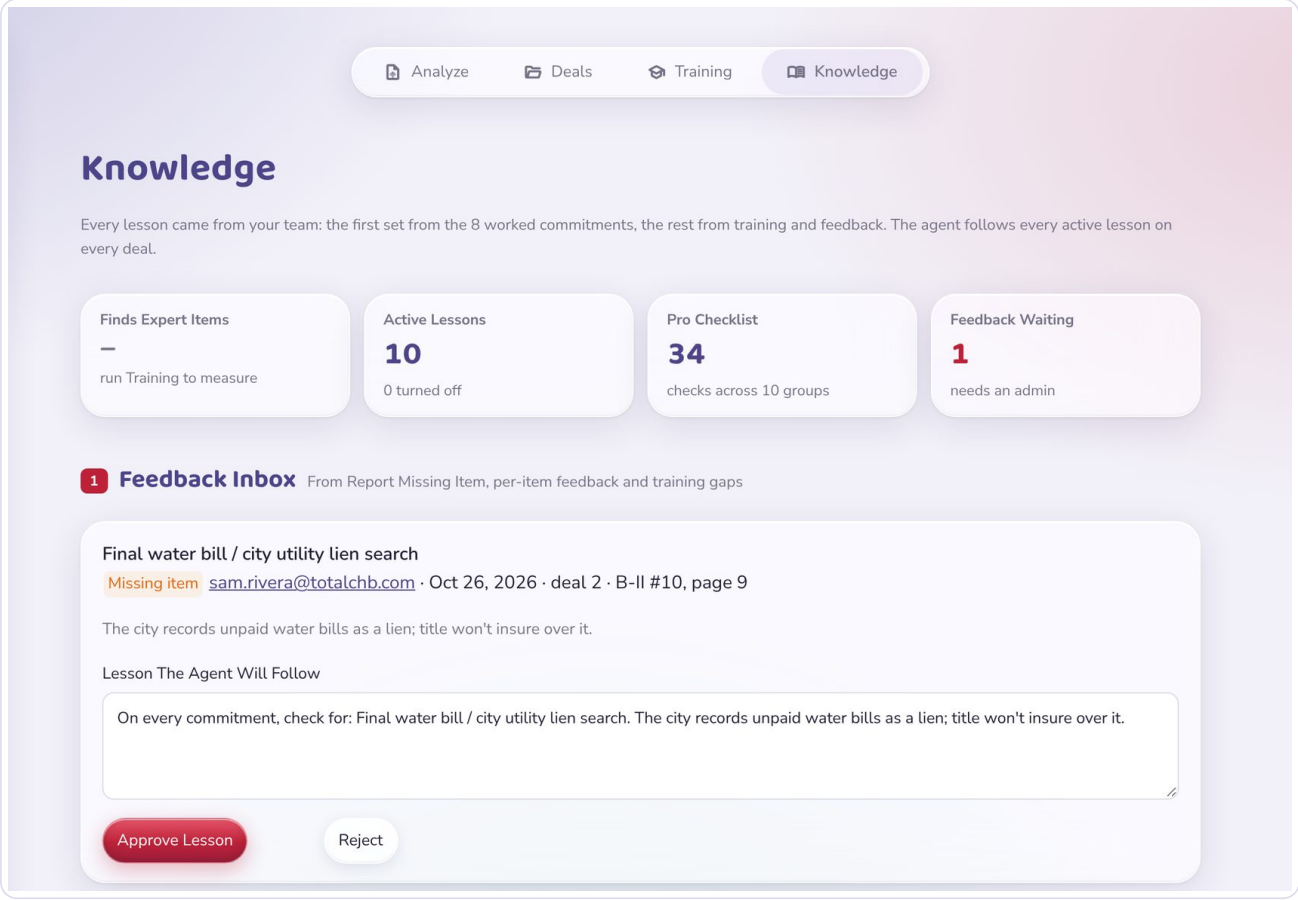

The daily email

Every weekday morning, everyone on the list gets one email from **title-agent@totalchb.com**, covering every open deal: its open Closing Blockers and anything due in the next 3 days, with overdue items flagged and an **Open** link straight to the deal.

12 For The Owner And Admins

Admins approve what the agent learns and set up the team. Admins are listed in Settings.

Approving lessons (Knowledge tab)

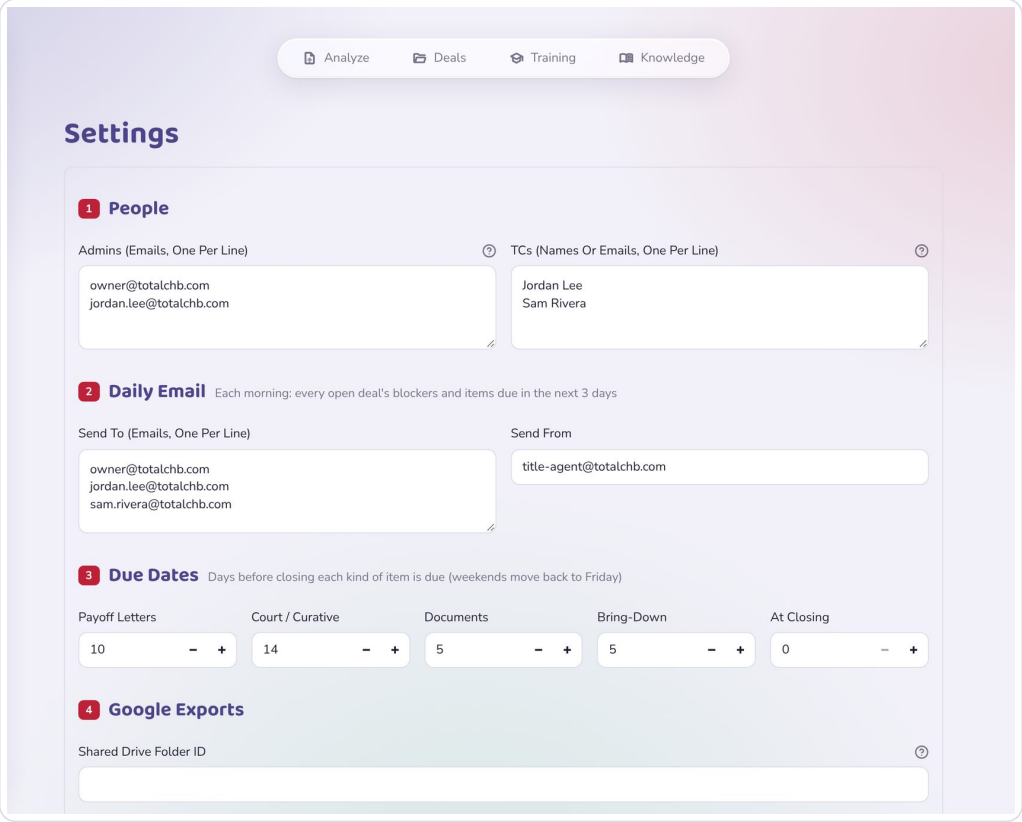

The Feedback Inbox: edit the lesson, then approve or reject.

1. Open **Knowledge**. The sidebar shows how many items are waiting.
2. Read each item in the **Feedback Inbox**. The suggested lesson is in the text box.
3. Edit it into a **general rule** the agent can apply to every commitment. Good: "When a city lists unpaid water or sewer charges, order a final read and list the payoff as a Closing Blocker." Bad: names, addresses, amounts or case numbers from one deal.
4. Click **Approve Lesson** (it applies from the next review) or **Reject**.

Under **Lessons**, every active lesson has an on/off switch. Turn one off if it causes wrong items; add your own with **Add a lesson**. The first 10 lessons came from the 8 worked commitments the team provided.

Settings

Setting	What to put
Admins	Emails of the people who approve lessons and change settings, one per line. Type them exactly as those people type their email at sign-in.
TCs	Names (or emails) of the TCs, one per line. You pick from this list when confirming a deal.
Daily Email: Send to	Everyone who gets the morning summary.
Daily Email: Send from	title-agent@totalchb.com (leave as is).
Due Dates	Days before closing for each kind of item (defaults: payoffs 10, curative 14, documents 5, bring-down 5, closing 0).
Shared Drive folder ID	For Google Sheets / Docs exports, once Google is connected.

Settings. Click Save Settings when done; the Connections tiles below show what's connected.

Important. Admins are recognized by the email typed at sign-in. Keep the team password to the team, and change it (in Streamlit → Settings → Secrets → APP_PASSWORD) when someone leaves. Changing it signs everyone out.

Training (optional)

To measure the agent, upload a commitment your team already worked on the **Training** tab, paste the closer's list and click **Compare With Agent**. You'll see what both found, what the agent missed (each becomes a suggested lesson in the inbox) and what it added. Each comparison is a full review: 1–3 minutes and roughly $1–2 in AI usage.

13 Good Habits

- **Run every commitment through the agent** the day it arrives, and every revised commitment too.
- **Always add the closing date.** Without it, there are no due dates and no countdown.
- **Check the coverage bar.** Anything short of 100% or a red box means: read those items yourself.
- **Check every ✗ in the Source column** against the commitment.
- **Keep statuses current.** The daily email and the whole team rely on them.
- **Report every miss.** One report can save every future deal.
- **Keep deal data inside the company.** Don't forward exports or the app link outside the team.
- **A person signs off** on the list before closing. The agent helps; it doesn't decide.

14 Quick Answers

Question	Answer
Does it work on my phone?	Yes, in the phone's browser with the same link and sign-in. Uploading and exports work too; a computer is easier for long lists.
The app is slow to open.	It sleeps when nobody uses it. The first visit wakes it in about 30 seconds.
It asks for the password again.	You signed out, cleared cookies, used a different browser, or the Owner changed the password.
"The AI service is busy" or another error.	Wait a minute and click the button again. Your upload is kept until you click Start Over.
The numbering check is red.	Read the listed item numbers in the commitment yourself and add anything missing with Report Missing Item.
An item is wrong.	Feedback on an item → Wrong Info, then set it to Waived with a note.
I picked the wrong deal type or date.	Upload the commitment again as an updated commitment for that deal and fix the details on the confirm screen.
Can I upload a scanned PDF?	Yes. Quotes from scanned pages show · instead of ✓, because there's no text to check them against.
Where are the original PDFs?	Deal page → Documents and review history.
Who sees my changes?	Everyone on the team, immediately. Your email is recorded on each change.

Quick Reference Card

Print this page and keep it at your desk.

I want to...	Do this
New commitment	Analyze → upload PDF (+ contract) → Read Documents → confirm deal type and closing date → Run Full Review.
Revised commitment	Deal → Updated Commitment → pick the deal → Read Documents → Run Full Review.
Every morning	Read the daily email → open each deal → Show: Open Only → work what's due → update statuses and notes.
Something's missing	Deal → Report Missing Item → fill it in → Send Feedback.
Something's wrong	Deal → Feedback on an item → Wrong Info / Not Needed → set status to Waived.
Send the list	Deal → Export List → PDF / Word / Excel / CSV.
Deal closed	Deal → Documents and review history → Mark Deal Closed.

Priorities

Closing Blocker
Stops the closing. Payoffs, liens, judgments, court items.

Before Closing
Needed by closing day. Deed, entity docs, estoppel, forms.

Review / FYI
Stays on the policy. Easements, restrictions, notes.

Statuses

Open	Ordered	Received	Cleared	Waived
Not started	Requested	In hand	Done	Not needed + note

Source marks

✓ quote found on the page · ▪ scanned page or checklist item · ✗ check it yourself

Due dates

Payoffs 10 days before closing · court / curative 14 · documents 5 · bring-down 5 · paid at the table: closing day. Weekends move to the Friday before.
